

Become a Hempitecture Trained Builder

Join Hempitecture for a 4 Day Contractor Training Intensive at the Hempitecture Innovation Lab

Spend 5 days in beautiful Ketchum, ID at the Hempitecture Innovation Lab and learn the theory and mechanics of a variety of hemp building strategies.

We will transition from a classroom setting to hands-on building techniques in our hemp-lime dedicated facility, the Hempitecture Innovation Lab.

This contractor training program is custom tailored for construction professionals and those with advanced built environment experience. An application process is required before acceptance to our program.
